

WINTER UNIVERSIADE IN KRASNOYARSK

In the run-up to the XXIX Winter Universiade, Russian Railways invested RUB 3.7 bn in building modern facilities. The main facility, the Krasnoyarsk Railway Station, features a barrier-free design and safety requirements, real-time information, Smart Railway Station and a comfortable waiting place.

In March 2019, the Company used 23 pairs of daily intracity suburban trains, including 21 pairs to transport sports delegations and fans.
